May 2018

Greetings

Examinations June 2018: Learners should all be in possession of their timetables. There are two weeks to the start of the examinations!! Learners should have begun with their examination preparations – this is certainly not Mom or Dad's responsibility. Thank you to the educators for their extra time with the learners – teaching on weekends and until 7.00pm at night during the week can only be admired and commended.

Please can I remind parents of the correct protocol at the school – the Class/Home Room teacher and then the Grade Tutor need to be notified regards your child; this would include absenteeism, requests to be away from school among any other requirements.

Raffle: Please support the 'Electric Bicycle' drive. All proceeds will go the school. Tickets are still available @ R20 a ticket.
